TECA Cloud Computing

Get the Competitive Edge

Competition in the marketplace can be fierce, so you're always on the lookout for systems or services that give you an edge. With TECA Cloud Computing for both iSeries AS400 or x86, not only will you gain the advantage over your competition, you'll save time and money, while freeing your organization from the headaches and hassles of managing your in-house IT infrastructure.

> TECA Cloud Computing delivers all the positive advantages of proven technology, while eliminating the negative costs.
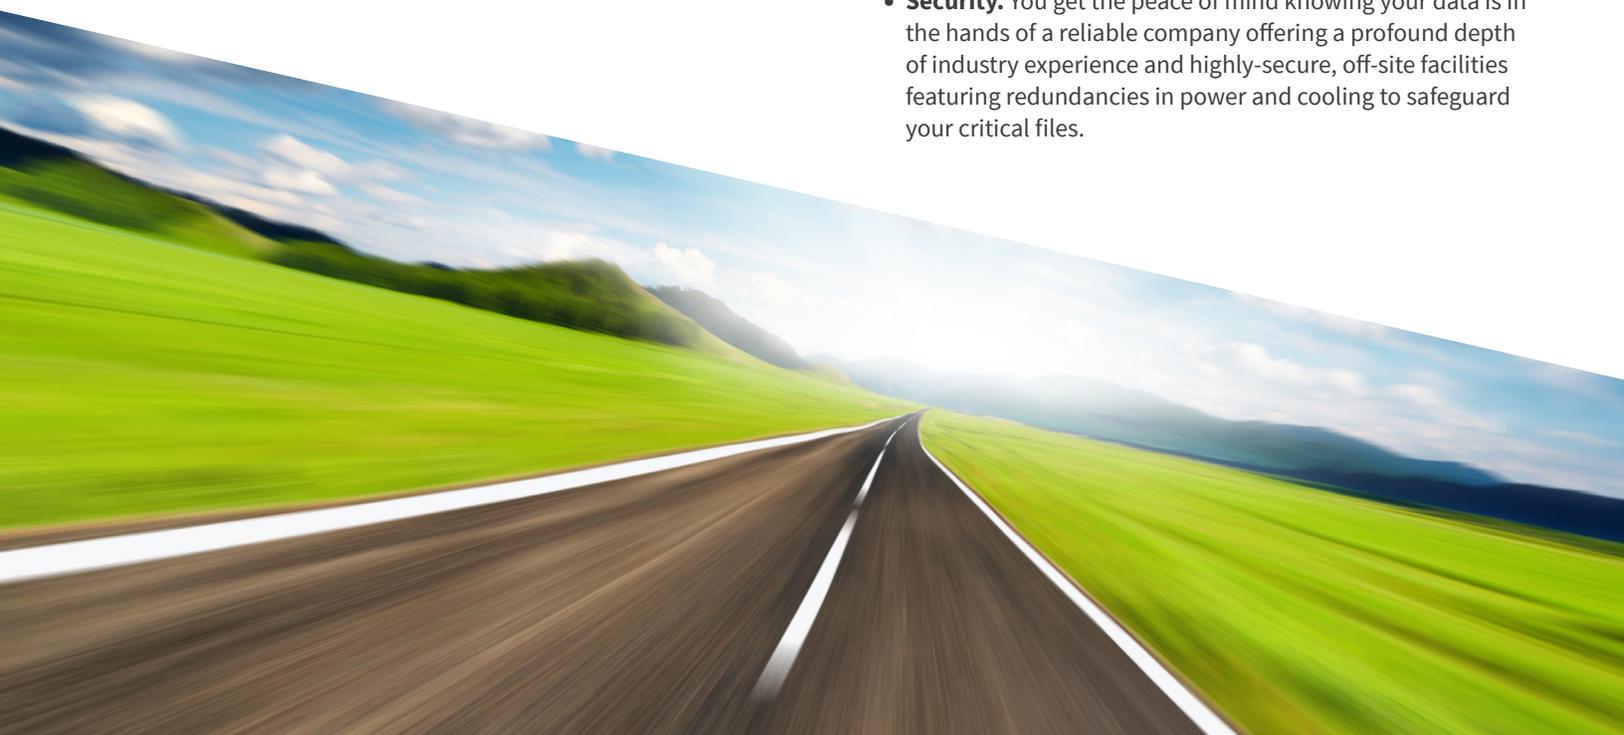

How TECA Cloud Computing can make you an industry leader

Technology has become an integral and inescapable part of business. And while its maximized efficiency and optimized productivity, its necessity can challenge your enterprise by eating up time, manpower, space, and capital, with the potential to put your business behind on the road to success.

The solution is TECA Cloud Computing for AS400 and x86 environments.

TECA Cloud Computing delivers all the positive advantages of proven technology, while eliminating the negative costs. Here's how:

- **Innovative technology always at your fingertips.** TECA ensures that your cloud computing technology is always dependable.

- **No investment in hardware, maintenance, repair, or replacement.** Rather than spend your hard-earned money on purchasing and maintaining expensive systems, TECA supplies you with innovative equipment that evolves as technology advances.

- **Turnkey solution.** No need for you to waste time with installation, learning new systems, or training. TECA does it all for you, leaving you to do what you do best—operate your business with responsive, high-performing systems in place.

- **Predictable costs that fit your budget.** With a set fee and no surprise costs, you can easily incorporate TECA Cloud Computing into your budget.

- **Professionally managed.** Because TECA IT professionals are available to manage your services for you, there's no need for you to pull existing staff off projects or hire more staff who add the cost of salary and benefits to your budget.

- **Scalable to accommodate business growth.** As your business grows, your TECA Cloud Computing does too.

- **Security.** You get the peace of mind knowing your data is in the hands of a reliable company offering a profound depth of industry experience and highly-secure, off-site facilities featuring redundancies in power and cooling to safeguard your critical files.

- **Expert customer service.** You can depend on TECA 24/7. We differentiate ourselves from the competition with a commitment to exceptional service and responsiveness to our customers.

- **Tailored to fit your needs.** There is no one-size-fits-all when it comes to Cloud Computing. TECA designs your services to meet your individualized needs.

TECA Cloud Computing skyrockets your business, by offering you more benefits and fewer costs.

TECA Cloud Computing Services

TECA Data Safe's Cloud Computing Services delivers consistent, dependable, and resourceful IT solutions to your business at a fraction of the cost of procurement. What's more, TECA will bring together the services tailored to your specific needs.

Trust TECA Cloud Computing Services for:

Cloud Computing (PaaS and IaaS)

TECA's Cloud Computing provides Platform as a Service (PaaS) and Infrastructure as a Service (Iaas), enabling you to reduce costs and increase speed of development, deployment, and management of your physical or virtualized x86 or AS400 workloads. By utilizing TECA's Cloud Computing, clients enjoy:

- Reduced need for costly server and storage space that is underutilized when dormant

- Reduction or elimination of software license costs and maintenance fees

- Optional management of hardware and software patches and updates, along with physical and software security

- Decreased hardware and software conflicts with a standardized platform that allows your IT staff relief from day-to-day routine tasks

- Improvements in speed, flexibility, and agility which translates into faster time to market, speedier response to changes, and an enhanced ability to make investments go further

- Hosting services that relieve your staff of tasks such as system maintenance, back up, and administrative activities

- Fast access to additional resources on a short-term or long-term basis

- Control and management of administrative tasks of your choosing

- Automatic software and hardware updates

Disaster Recovery as a Service (Rapid Rebound DRaaS)

TECA's Rapid Rebound DRaaS empowers you to get back to business faster after a disaster with replication and high availability recovery services. Get peace of mind, along with:

- Rapid Rebound to business as usual (within minutes or hours depending upon your recovery needs) and minimal downtime after a disaster

- Reduced spending on operational resources with little or no hardware and software expenditures

- Recovery infrastructure at your fingertips to which you can quickly and easily restore your data and applications

- Automatic backups replicated to TECA's secure data center

- Fast, professional response to your needs 24/7 in the event of an emergency

Blast past the competition!

TECA's Cloud Computing services accelerates your ability to do business by providing powerful, cost-effective, time-saving solutions no matter what your platform. We work with you to create the service options you need, while providing you with the best-of-breed technology you want.

Since 2005, we've been helping businesses just like yours blast past the competition! Isn't it time you launched your enterprise to the TECA Cloud? Call us today for more information or to get started.
